

"Bee" Nice to Mom Celebration

LEBANON TOWNSHIP MUSEUM
SATURDAY, MAY 11
1-3PM

This will be a combination Mother's Day and belated Earth Day celebration. Participants are invited to make Mother Earth-friendly gifts for any special Mothers in their lives including a bee hotel made from recycled and natural materials as well as a personalized potted pollinator-attracting plant.

Join local beekeeper Eddie Grannis of the The Old Millpond Farm for a hands on exploration of these native pollinators. Learn about their value, habitat, how they make honey and so much more!

Inside the Museum check out the Mother's Day-themed paintings created by 2nd grade Valley View School students!
